Fazeta sans

Fazeta Sans is a perfect companion to serif typeface Fazeta. Two light weights were added, so the complete typeface consist of 14 fonts (7 weights + matching italics). The fine gradation lets you choose perfect weight for any type of project. Every font have 1140 glyphs – just like the serif version and contains the same features, so use and combining of whole typeface is very comfortable. Also fixed kerning allows better comfort for eyes by reading and shortens the length of the text. I tried to preserve sharp and cold impression from serif version, but some straight lines had to be curved due to the natural limitation of sans typefaces (for example the upper arch of “f” is shaped more smooth). However it keeps extremely open form. A little playfulness was left at the end of letters “k, K, and R”, but if you want, this can be eliminated by using a rigorous SS01 feature. Serifs were here transformed into a small yaw from main stroke and so enliven the monotony of sans kind of types. Also slight cutting the top of the letters helping to surprisingly vivid final impression. Fazeta Sans is therefore suitable for wide range of type sizes – from small marginalies to huge poster sizes.

- 14 styles (7 weights + italics)
- 1140 glyphs per font
- alternative glyphs for traditional feeling
- 6 faceted borders
- 84 discretionary ligatures
- support of all latin languages

Turecký prezident Recep Tayyip Erdogan vo štvrtok povedal, že je islamofóbne a neprijateľné, aby izraelský premiér Benjamin Netanjahu spájal minulotýždňové smrtiace útoky militantov v Paríži s islamom. Informovala o tom agentúra Reuters. „Izraelská vláda musí zastaviť svoju agresívnu a rasistickú politiku, prestať útočiť na druhých a skrývať sa za antisemitizmom,“ uviedol prezidentov hovorca Ibrahim Kalin v písomnom vyhlásení na Erdoganovej webovej stránke. Turecký premiér Ahmet Davutoglu prirovnal Netanjahu k islamským militantom, ktorí minulý týždeň uskutočnili vo francúzskej metropole Paríž teroristické útoky. „Rovnako, ako sa zločinu proti ľudskosti dopustili teroristi, ktorí spáchali masaker v Paríži, dopúšťa sa zločinov proti ľudskosti aj Netanjahu stojaci na čele vlády, ktorá pri bombardovaní Gazy nechala zabiť deti hrajúce sa na pláži,

It is Ebola. While thousands of health care workers seek to control the deadly virus in West Africa, and the Centers for Disease Control and Prevention and other medical professionals seek to prevent its outbreak in the United States, financial analysts and others have been trying to estimate – or “model,” in Wall Street parlance – the potential effect on the global economy. The most authoritative model, at the moment, suggests a potential economic drain of as much as \$32.6 billion by the end of 2015 if “the epidemic spreads into neighboring countries” beyond Liberia, Guinea and Sierra Leone, according to a recent study by the World Bank. That estimate is considered a worst-case scenario, but it does not account for any costs beyond the next 18 months, nor does it assume a global pandemic. It was maintained for some

Dočkáme se mezi Ruskem a USA nových závodů ve zbrojení? Záleží na tom, jak budeme tento pojem definovat. Za studené války oba bloky zbrojily takřka extenzivně, na jakýkoli krok protivníka reagovaly víceméně symetricky, tedy snahou vytvořit zbraň téže kategorie, avšak výkonnější. V tomto smyslu závody ve zbrojení skončily spolu se studenou válkou. Dnes ale vidíme něco jiného. Rusko chápe některé zbrojní projekty Západu, zejména protiraketovou obranu, jako něco namířeného proti sobě, a ať už má pravdu, nebo ne, reaguje vývojem protizbraní. Pokud budeme i toto pokládat za závody ve zbrojení, tak takové asymetrické „závody“ probíhají už minimálně deset let. Naposledy ruský ministr zahraničí Sergej Lavrov oznámil, že nastal čas na zásadní modernizaci jaderných a konvenčních zbraní, protože Rusko „vidí nepřátelské

Östra Småland besökte den då nyss inflyttade familjen för lite drygt ett år sedan. Redan då fanns ett internationellt intresse av duons hattar. Liket förra året åkte de i år till modeveckan i Paris för att visa upp sina senaste kollektioner. Intresset har inte minskat. Under förra året gjorde vi runt 100 hattar totalt och hittills i år har vi gjort 400 hattar. Nu efter modeveckan har vi beställningar på minst 500 hattar som ska vara klara i slutet av januari, säger Karin Linder och ser sig om i ateljén. Paret bor intill Kåremos gamla lanthandel och butiken har under året i allt större omfattning förvandlats till ateljé. Förut tänkte vi göra om den gamla butiksdelen till butik men nu behöver vi den för produktionen. Vi har även tagit in hjälp av två personer på halvtid för att hinna med. Un assaut sanglant. Plusieurs personnes auraient été tuées au cours d'une opération terroriste ce jeudi soir dans le quartier de la gare à Verviers, près de Liège, en Belgique, rapportent les médias belges. Le parquet fédéral a confirmé au quotidien Le Soir qu'une opération anti-terroriste était en cours. «On est dans le registre des djihadistes», a précisé une source proche du gouvernement à l'AFP. Le parquet fédéral belge a annoncé la tenue d'une conférence de presse à Bruxelles à 20h «sur l'opération liée au terrorisme à Verviers». La RTBF avait indiqué plus tôt que trois personnes seraient mortes et plusieurs autres auraient été interpellées. Ce chiffre n'a pas été confirmé de source officielle dans l'immédiat. Les médias flamands parlent eux de deux personnes tuées. Un journaliste belge a indiqué sur Twitter que

Da igual el camino que tome, no muy lejos de donde llegue encontrará bares y restaurantes donde podrá cenar. En la Calle Virgen de la Paz, que es donde se encuentra la Plaza de Toros y la Alameda, hay algunos restaurantes con una oferta culinaria de gran calidad, aunque si prefiere andar un poco más, muy poco, puede ir hasta la Plaza del Socorro (con locales destinados al turismo) o al entorno de la Plaza Carmen Abela (más orientada a los rondeños). Completará así la primera noche rondeña. Mañana del sábado: Es el momento ideal para levantarse antes de las 9 de la mañana y desayunar en alguno de los bares que hay en torno a la popular calle de la Bola (oficialmente Carrera de Espinel). Un buen desayuno rondeño con molletes y zurrapa de lomo le ayudará a cargarse de energía porque tras el desayuno se encaminará hasta una zona

Rogán Antal Fidesz-frakcióvezető szerint az Európai Unió nem tudja megvédeni tagállamait, ezért azoknak, köztük Magyarországnak is, meg kell védeniük magukat. A politikus a terrorellenes fellépésről rendezett szerdai ötpárti egyeztetés után azt is mondta, hogy bár a megbeszélésen érdemben nem volt szó a bevándorlás kérdéséről, a Fidesz meggyőződése az, hogy “Európában a problémának az egyik gyökere a bevándorlásban keresendő”. Megjegyezte, Európában 2013-ról 2014-re 130 százalékkal nőtt az illegális bevándorlók száma. “Magyarország ebből a szempontból tranzitország” – fűzte hozzá. Rogán összemzeti ügynek nevezte a terrorizmus elleni fellépést. Mint mondta, pártja javaslatot készít annak érdekében, hogy bizonyos közösségi szimbólumok és értékek kiemelt védelemben részesüljenek. After Paris Attacks, Wrong Responses to Charlie Hebdo

LEADERS IN EUROPE ARE JUSTIFIABLY TRYING TO FIGURE OUT WHAT THEY SHOULD BE DOING TO PREVENT TERRORIST ATTACKS LIKE THE RECENT MASSACRE AT THE SATIRICAL FRENCH NEWSPAPER CHARLIE HEBDO.

Regrettably, some politicians are proposing the kind of Internet censorship and surveillance that would do little to protect their citizens but do a lot to infringe on civil liberties. In Paris, a dozen interior ministers from European Union countries including France, Britain and Germany issued a statement earlier this week calling on Internet service providers to identify and take down online content that aims to incite hatred and terror. The ministers also want the European Union to start monitoring and storing information about the itineraries of air travelers.
